***Allowable Subject Matter***

1. Claims 1 and 7-9 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 7, Reggia et al (US 3,987,458) discloses an antenna with omni-directional radiation comprising N semi-circular monopoles being perpendicular to an earth plane, the N semi-circular monopoles being nested with respect to one another in such a way as to exhibit a common diameter. Reggia, however, fails to further teach that the N semi-circular monopoles are nested in such a way that the angles between the monopoles are unequal.

Claim 9 is allowed for depending on claim 7.

Reason for indicating allowable subject matter for claims 1 and 8 were provided in the previous Office action.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
